EXPLORER

MX 8/10/12

The Sitrex EXPLORER Pull - Type V-Rake is a medium size V-Rake. This machine is designed to obtain a maximum working width of 23'3" and windrows widths adjustable from 3' to 5'.

The drawbar and the opening system are mounted over the wheels this allows to make a windrow without hindrances with the components of the machine. All rake wheels are spring-load lifted independently and this allows the machine to follow the ground contours.

Tines are made of special steel with 7mm. diameter. Tines pick up the hay making fluffy windrows very suitable for baling.

A double hydraulic system, tractor driven, controls both the wheels lift and the machine total or partial opening and closing.

On the hydraulic cylinder, which controls the opening and closing of the machine, is mounted a locking valve to maintain the required working width. Even in case of pipe breaking the machine remains in the same position which has been set.

The hydraulic center wheels kit allows complete moving of forage, also in the central area

OPTIONAL

SPECIFICATIONS	MX 8	MX 10	MX 12
Number of fingerwheels	8	10	12
Number of tines for wheel	40	40	40
Working width	17'5" / 5,3 m	20'5" / 6,2 m	23'3" / 7,1 m
Operating speed	14 MPH 22,5 Km/h	14 MPH 22,5 Km/h	14 MPH 22,5 Km/h
Minimum power required	22,4 Kw 30 HP	22,4 Kw 30 HP	22,4 Kw 30 HP
Weight	2685 lbs 1220 Kg	3015 lbs 1370 Kg	3350 lbs 1520 Kg
Tyre size	205-65 R15	205-65 R15	205-65 R15
Transport width	8'3" / 2,5 m	8'3" / 2,5 m	8'3" / 2,5 m
