

水田整平迴轉犁

WE-WJS 系列

Assisting Wings.

Central-spring pressure adjustment.

The best in soil preparation.

- Excellent soil preparation with installed harrow panel and assisting wings.
- A tractor of only 30 to 40 hp can undertake a wide-width rotary job and soil preparation at a height of more than 2m.
- Specially designed C-type blade works perfectly for rice straw and weed breathing.

Back cover adjusting table.
