

 KENDING
COLOR SORTER
CS-24D

FEATURES

1. Adjustable Separation Functions :

Color sorter can separate immature rice from brown rice, color rice from white rice, and transparent white rice from glutinous rice.

2. Excellent Grading Capability :

More than 90% of color grain can be removed from raw material.

3. Easy Adjustment &Operation :

Built-in motor-driven reflection board, enhance sorting accuracy and simplify sorting operation.

4. Automatic Control :

Micro-processor monitors machine's operation; Error-codes display makes error detection effortless.

5. Second Sorting Reduces Waste :

The rejected rice from first sorting system contains some good grain which can be recycled back through second sorting system.

6. Superior PeripheralsSupport :

Color sorter can be connected to other control devices and make plant automation possible.
