

CEREAL WHITMING MACHINE

RM-15

Description:

MODEL: RM-10, RM-15

ABRASIVE-TYPE

CEREAL WHITENING MACHINE

1.UNIQUE JET AIR SYSTEM

Jet air is blown from the fan to the milling chamber, functioning not only to prevent the temperature of the cereal grains from rising but also to remove bran sticking to the whitened cereal.

2.EASY OPERATION

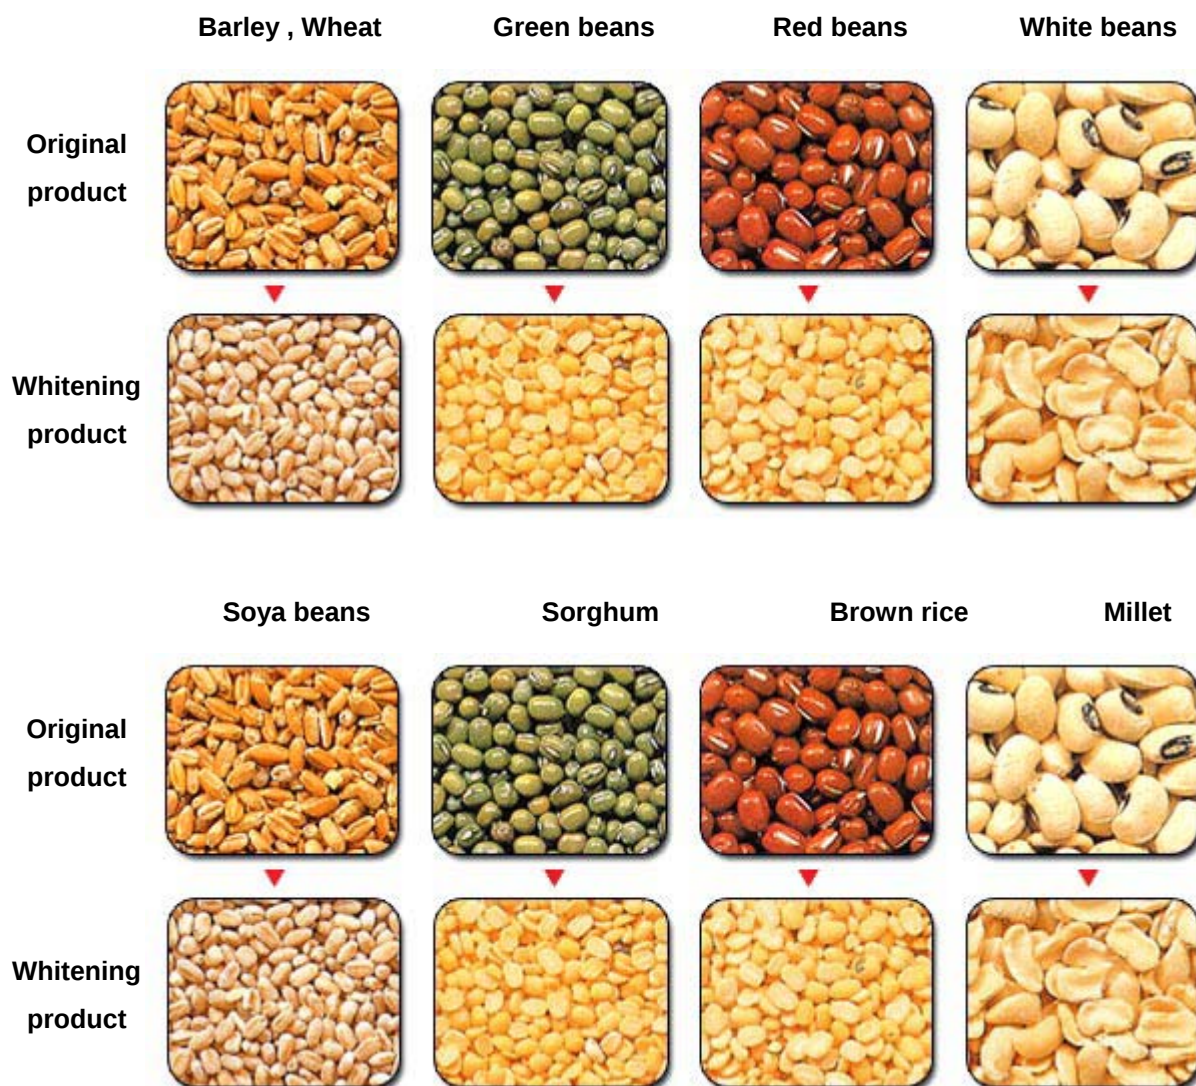

This machine is a masterpiece. It is very different from other countries made. Operation is very easy, requiring no previous training.

3.SUPERIOR ABRASIVE ROLLER

Unlike conventional methods of production, the KENDING abrasive rollers' are manufactured with strict forming and heat treatment, giving them extra-high durability and sharpness. Dull edge conventional rollers means excess pressure on the cereal grains during whitening potential of the abrasive-type process.

MODEL	REQUIRED POWER	INPUT CAPACITY	EMERY ROLLER
RM-10	15 HP	1000 KGS/HR	3 PCS
RM-15	20 HP	1000-1500 KGS/HR	4 PCS
RM-30	50 HP	2000-2500 KGS/HR	7 PCS
